## **DETAILED ACTION**

### ***Claim Objections***

Claim 9 is objected to because of the following informalities: The phrase “least one from snow glider according to” appears to be an editing error and should be removed. Also, in line 5, “*an* snow glider” should be replaced with “*a* snow glider”.

Appropriate correction is required.

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

**Claims 4-9 are rejected under 35 U.S.C. 102(b) as being anticipated by Marquesen (U.S. Design Patent No. D281,679).**

[**claims 4-8**] Marquesen shows a snow glider including each and every limitation of the claims listed above and is inherently capable of being used as claimed in claims 5, 7, and 8. Also, the handles shown by Marquesen are inherently capable of being used as foot holders when two of the tandem gliders of Marquesen are attached in the manner claimed.

### ***Conclusion***

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Please see attached form PTO-892.
